## Profile

I am Clinton Arani Omari, currently a third-year student at Chuka University, pursuing a Bachelor of Applied Computer Science. My specialization within the field of computer science is Web Development, and I consider myself a proficient full-stack web developer.

## SKILLS

Over the course of my studies, I have acquired a diverse set of skills, not only through formal classroom education but also by actively seeking out advanced knowledge via online resources, particularly YouTube tutorials.

My expertise in front-end development includes proficiency in languages such as HTML, CSS, SASS, JavaScript, Bootstrap, React, and jQuery.

On the back-end, I am skilled in PHP, Python, Node, MySQL, Java, and MongoDB.

Additionally, I am fluent in both English and Kiswahili languages.

## EXPERIENCE

Despite not having formal work experience, I have garnered substantial practical experience by undertaking various projects. I have successfully developed websites, including a personal portfolio, ecommerce platform, online library, and others. The source code for these projects is available on my GitHub account, accessible through the provided link at the end of this resume.

## EDUCATION

I commenced my university-level education at Chuka University on September 9, 2021, and continue to pursue higher education.

At the high school level, I initiated my secondary education at Lelu Secondary School, Kericho county on January 1, 2017, and graduated with a C plus (C+) on April 16, 2021.
